PROFESSIONAL SUMMARY

Healthcare IT professional with 4+ years of experience supporting hospital software, HMIS, healthcare reporting, application workflows, and database systems. Experienced in software deployment and configuration, user support, application troubleshooting, HMIS implementation, and resolving issues across application and database layers.

Hands-on experience with HMIS, DHIS2, OpenMRS, Bahmni, SQL Server, MySQL, PostgreSQL, Oracle, Python, Django, and .NET. Brings practical experience working directly with hospital users and technical teams across Billing, Pharmacy, Laboratory, Inventory, and Accounting systems, with a strong interest in broader hospital IT support.

TECHNICAL SKILLS

Healthcare IT & HMIS:

HMIS / Hospital Management Systems, DHIS2, OpenMRS, Bahmni, Healthcare Information Systems, Hospital Software Support, HMIS Implementation, Healthcare Reporting, Hospital Workflow Support, User Support & Troubleshooting

IT Support & Technical Troubleshooting:

Software Deployment & Configuration, Application Support, Technical Troubleshooting, User Support, Issue Diagnosis & Resolution, Basic TCP/IP & LAN/WAN Concepts, Basic Network Connectivity Troubleshooting, Basic Hardware & Peripheral Troubleshooting

Database & Reporting:

SQL, Microsoft SQL Server, MySQL, PostgreSQL, Oracle, Stored Procedures, SQL Reporting, Query Optimization, Complex Joins, CTEs, Aggregations, Window Functions, Data Extraction & Validation

Backend & Application Development:

Python, Django, Django REST Framework, C#/.NET, REST APIs, Internal APIs, Database Integration

Tools:

Git, GitHub, GitLab, Bitbucket, Docker, DBeaver, MySQL Workbench, Visual Studio Code, Jira, Asana, Trello

PROFESSIONAL EXPERIENCE

Database Associate — Contract

Nyaya Health Nepal (NGO), Kathmandu, Nepal

Feb 2026 – Sep 2026

- ★ Develop and maintain SQL queries for DHIS2 and HMIS healthcare reporting requirements.
- ★ Work with OpenMRS/Bahmni healthcare data, including an OBS table containing more than 60 million records.
- ★ Build reporting queries using joins, CTEs, views, aggregations, and selected window functions.
- ★ Investigate and troubleshoot SQL and reporting issues affecting healthcare data workflows.
- ★ Optimize medium-complexity queries to improve reporting performance and maintainability.
- ★ Extract, transform, aggregate, and validate healthcare data for reporting requirements.
- ★ Work with healthcare information systems and reporting workflows to identify and resolve data-related issues.

SQL Developer — Full-Time

Medipro Computers Pvt. Ltd., Kathmandu, Nepal

Jan 2025 – Feb 2026

- ★ Developed SQL queries and reporting solutions using Microsoft SQL Server for DHIS2 and business reporting requirements.
- ★ Developed and integrated stored procedures with .NET applications to support HMIS and other business workflows.
- ★ Supported database-side logic for Pharmacy, Inventory, Accounting, and HMIS modules.
- ★ Investigated and resolved issues across application and database layers.

- ★ Optimized SQL queries to improve execution efficiency and reporting performance.
- ★ Worked with relational data involving joins, aggregations, filtering, and reporting requirements.
- ★ Supported troubleshooting of application and reporting issues in healthcare software environments.

Software Developer — Trainee

Meraki Tech Pvt. Ltd., Kathmandu, Nepal

Jan 2025 – May 2025

- ★ Contributed to backend development of an HMIS application using Django, Django REST Framework, and PostgreSQL.
- ★ Developed internal REST APIs supporting healthcare application workflows and data exchange.
- ★ Worked on laboratory record management and pharmacy and hospital billing workflows.
- ★ Contributed to Lab, Pharmacy, Billing, and Account modules.
- ★ Supported accounting workflows including ledger and account posting.
- ★ Debugged and resolved backend issues across different healthcare application modules.

Implementation Officer — Full-Time

Midas Technologies Pvt. Ltd., Kathmandu, Nepal

Dec 2021 – Dec 2024

- ★ Supported implementation of healthcare software covering Billing, Pharmacy, Inventory, Laboratory, and Accounting across hospitals and their branches.
- ★ Assisted with software deployment, configuration, troubleshooting, and user adoption in hospital environments.
- ★ Worked directly with hospital users to understand issues and support day-to-day use of the software.
- ★ Supported Oracle database installation and database-related implementation activities.
- ★ Supported integration between Billing and Accounting and between Pharmacy and Accounting workflows.
- ★ Supported HMIS-to-DHIS2 integration for healthcare reporting and data exchange.
- ★ Worked with technical teams to investigate and resolve application and workflow-related issues.
- ★ Gained practical understanding of hospital workflows across Billing, Pharmacy, Laboratory, Inventory, and Accounting departments.

EDUCATION

Bachelor of Computer Application (BCA)

Danfe College, Sinamangal, Kathmandu, Nepal

2022 – 2027 (Expected)

Higher Secondary Education (+2) — Computer Science

Rastriya Higher Secondary School, Biratnagar, Morang, Nepal

Completed: 2015
